

AT A GLANCE.....

The Mission

Since it's conception in December of 2003, A Second Glance Wellness Spa and Salon has always followed our mission statement which is "To create an ambiance of wellness, joy, peace, tranquility and balance, that will leave one mentally and physically and emotionally renewed, in addition to providing superior service with integrity and skill.

The Vision

We support the vision of the President and CEO, Dr. Sharon McDaniel-Lowe that states; We envision a community where people are empowered and uplifted and more importantly, feel good about themselves both inside as well as outside their person. We desire feeling of hope, confidence and beauty to resonate within one's inner being and then shared with others.

Did you know ?

The current trend among African American women as it pertains to their hair is to be relaxer free. Not just in Pittsburgh but across the globe women of color are shying away from chemical relaxers and going for the natural look. For most of us this seems like an impossible thing to do considering that we've worn chemicals most of our lives and can't imagine life without them. However, **THERE IS LIFE AFTER A RELAXER!**

BEHIND THE CHAIR

Fred Dukas

Our featured stylist of the month is a new comer to the industry as well as to A Second Glance. Mr. Fred Dukas, a graduate of North Hills Beauty Academy, has been with A Second Glance since June of 2007 and states that his motto for hair is : "It don't mean a thing if it ain't got that swing". Fred loves everything about the industry but has a passion for color, cutting and styling, He states that he is so appreciative to be apart of the Second Glance staff and says his only regret is not joining our salon family sooner.

One thing that the team at A second Glance admires most about Fred is that he is ambitious and has a strong desire to continue learning and growing.

You can find Fred **Behind the chair** at A Second Glance—Tuesday through Saturday, he accepts walk in's and is thrilled to service all.

Carrlyn's Corner:

In the corner of A Second Glance is our nail area where you will find our wonderful Nail Tech / Spa Manager, Mrs. Carrlyn Johns. Carrlyn states that going natural seems to be a trend that may be here to stay. We have natural foods, more women and men are wearing "Locks" and even relaxers are taking a back seat to natural styles. Also did you know that more and more women are also choosing natural nails over artificial nails? There are a wide range of products to choose from to enhance and grow beautiful natural nails. You can have beautiful nails with just a little patience and pampering. It is less costly and hazardous to you and your pocket. So if you are thinking of going natural or giving your nails a break from acrylics,

make an appointment today for a natural nail service.
